This annual report summarizes the services provided by the EPFL Library to chemistry & chemical engineering students and researchers in 2017. The liaison librarian is the primary contact person at the Library. His mission is to collect your needs and make sure the library provides relevant services for the chemical community.

**Education and Training**

- **34** workshops and courses, designed for or open to chemists
  - Information search and retrieval
  - Data Management
  - Zotero
  - Prevention of plagiarism

**Open Access**

- **23** ISIC publications in Gold Open Access financially supported by the Library

**ISIC Publications**

- **3,066** ISIC fulltexts on Infoscience annual increase +207
- **12** publishers with discounts for hybrid OA publications (incl. ACS, RSC and Wiley-VCH)
- **16,589** publications showcased on Infoscience annual increase +652

**Acquisition Expenses for ISIC Collections**

- **94,000 CHF** for e-books
- **10,000 CHF** for printed books

**Research Data Support**

- **8** SNSF Data Management Plan workshops for the EPFL community
- **14** research groups in chemistry assisted by the Library staff (general overview of Data Management, feedback on DMPs, ...)
